Total return performance is historical and assumes reinvestment of all dividends and capital gain distributions. Past performance is no guarantee of future results. Mutual and Collective funds are not deposits or obligations of, or guaranteed or endorsed by, any bank or other financial institution. Investment return and principal value may fluctuate, so that when redeemed, an investor's shares may be worth more or less than original cost. This report does not provide financial or investment advice and does not take into account the particular financial circumstances of individual investors. Investors should seek their own professional advice before investing.

Funds that emphasize investments in smaller companies may experience greater price volatility. Foreign investing involves special risks.
